

DURABILITY FEATURES SELECTION

MOWER BLADES

for homeowners and landscape professionals

TOP 10 REASONS

OREGON® Remains an Industry Leader

1 Computerized Precision Straightening

- Superior straightness and consistency
- Removes human error
- Cleaner cut, especially on multi-blade decks
- Lower vibration – easier on the equipment and the operator

2 Consistent Blade Hardness

- Heat treated to extend blade life
- Hardness from the core to the edge is consistent
- Increased hardness without increasing brittleness or failure
- Improved stay-sharp

3 Statistical Process Control (SPC) Manufacturing

- SPC ensures the consistency and quality of OREGON® blades
- SPC ensures that all our standards for high performance and long blade life are met

4 Oregon® Certified Quality

- OREGON® blades not only meet specifications, OREGON® blades often are the specification
- OREGON® consistently delivers quality mower blades through established manufacturing standards for 26 characteristics

5 Comprehensive Selection

- Find the mower blade you need in the printed OREGON® catalog, or online at oregonlookup.com

6 GATOR MULCHER® 3-1

- OREGON® is the original manufacturer of Gator Mulcher® blades
- Eliminates the need to bag in most cutting conditions, saving time and money
- Delivers excellent bagging performance when you need to bag
- Mows faster at higher speeds than traditional mulching blades
- Features improved side discharge
- Thicker blades mean more strength and longer wear

7 Fusion®

- The Fusion® process uses electrofusion technology to apply a tungsten carbide coating into the blade in a method that is designed to keep cutting edges sharper longer
- Delivers the same high quality of cut throughout the day without sharpening—available only from OREGON®

8 Xtended Cutting Length

- Improved cutting efficiency
- Up to twice the cutting length
- Cuts and delivers mulching effect

9 The Information Source

- In the OREGON® catalog you'll find a wide selection of blades and helpful information
- Use the contact information below for assistance by mail or online

10 World Class Manufacturing

- OREGON® products are sold in more than 100 countries
- OREGON® employs state-of-the-art manufacturing technology in lawn mower blade production
